

Marcus Vinícius Natrielli Garcia

Backend Software Engineer | Node.js, TypeScript, AWS

E-mail: marcus.natrielli@outlook.com • Phone: +55 (11) 96627-1499

Website • GitHub • LinkedIn

PROFESSIONAL SUMMARY

Backend Software Engineer experienced in building **scalable Node.js** and **TypeScript** services, including **real-time moderation systems** that protect **40k+ Discord communities** and **7M+ users** using **AWS Serverless**. Skilled in **APIs, React, and PostgreSQL**, with proven impact through **performance-focused web applications**. Passionate about **online safety** and **cloud systems**.

EXPERIENCE

• Fullstack Software Engineer - Mathex

- Worked with enterprise clients in large-scale cloud infrastructures, such as the airline GOL Linhas Aéreas;
- Improved the security layers and measures for 10+ serverless services based on AWS Lambda.

January 2026 - today

• Backend Software Engineer - GamerSafer

- Designed and developed Discord moderation flows to detect and mitigate harmful behavior in real time;
- Implemented and maintained highly scalable microservices using AWS Lambda, DynamoDB, SQS and CloudWatch, serving 7M+ users;
- Improved performance and reliability of bot commands and event handlers, optimizing database access patterns and asynchronous processing.

January 2023 - November 2025

• Tech community leader - Projeto Hanna

- Managed 20+ community team members across multiple programming and educational projects;
- Presented talks on education and cybersecurity at 10+ Brazilian events like Campus Party Brasil.

March 2021 - today

EDUCATION

• Bachelor of Computer Science

Federal University of São Carlos - Sorocaba
2017 - 2022

LANGUAGES

- **Portuguese** - Native
- **English** - Advanced

PROJECTS

• Projeto Hanna Discord Bot[Top.gg]

- Bot with gamification features, tools, and games that brings more interactivity to online communities;
- Installed and used by 150+ Discord servers.
TypeScript, Discord.js, Node.js, Prisma, PostgreSQL

• Hanna Quiz Show[Website]

- Quiz show app made for educational event presentations and community meetups;
- Used on in-person events with 40+ participants.
Electron, Vite, React.js, TypeScript, HTML, CSS

• Professional portfolio [Website]

- Website showcasing experience, projects, and more;
- Project created to regularly improve frontend skills.
React.js, Next.js, TypeScript, HTML, CSS

SKILLS

- **Languages:** TypeScript, JavaScript, SQL, Python, Java, C/C++, GDScript
- **Backend & Databases:** Node.js, Express, Prisma, PostgreSQL, DynamoDB, REST APIs
- **Frontend:** React.js, Next.js, Tailwind, HTML, CSS
- **Cloud & DevOps:** Git, AWS (Lambda, SQS, DynamoDB, CloudWatch), Serverless, Docker
- **Soft Skills:** Leadership, public speaking, event planning, teamwork

HIGHLIGHTS

- **Speaker - CryptoRave 2026**
- **Speaker - TheDevConf 2025 São Paulo**
- **Host - MindTheSec 2025**
